

This book provides original essays that suggest ways to engage students in the classroom with the cultural factors of American literature. Some of the essays focus on individual authors works, others view American literature more broadly, and still others focus on the application of culturally based methods for reading. All suggest a closer look at how ethnicity, culture and pedagogy interact in the classroom to help students better understand the complexity of works by African Americans, Native Americans, Asian Americans, Latinos and several other sometimes overlooked American cultural groups.
