

The entrance of Native Americans into the world of cultural resource management is forcing a change in the traditional paradigms that have guided archaeologists, anthropologists, and other CRM professionals. This book examines these developments from tribal perspectives, and articulates native views on the identification of cultural resources, how they should be handled and by whom, and what their meaning is in contemporary life. Sponsored by the Heritage Resources Management Program, University of Nevada, Reno

Britain and the Middle East: Economic History, 1945-87 (Middle East Studies Series), The Frankenstein Journals: I For an Eye, Do Black Patent Leather Shoes Really Reflect Up?
